

Third characteristic of creation:

Use

Learning activities: Through contact with nature pupils can discover the characteristics of >use< themselves.

Method: Finding out the connection between the four pictures.

Beginning: "Each picture "tells" us some sentences about itself. For example: "I am the bread. I am the most important thing for everybody. Without me people would die."
"But without me", said the corn ...

I am the ...

Teacher: "Find another example for useful relations and links within nature and draw it into the frames."
